

## HERITAGE CAPITAL LLC

Invest for Tomorrow. Live for Today.™

I am scheduled to join the morning team at FOX61 in CT on Tuesday between 9:20 am and 9:40 am offering some last minute tax tips as well as my take on the markets from the individual investors' perspective.

Last week, I joined the Nightly Business Report as well as CNBC's Closing Bell which you can see here.

Investment News used some flattering quotes of mine late last month that are still very germane to today's market.

<http://www.investmentnews.com/article/20180322/FREE/180329961/stocks-plunge-advisers-tell-clients-to-hang-tight>

Finally, Adam Shell of USA Today was kind enough to include me in an article along with 8 other industry folks on 9 "good" stocks to buy for spring.

<https://www.usatoday.com/story/money/2018/03/16/apple-lockheed-martin-9-stocks-buy-spring/418176002/>

After being down 500+ points on Friday, stocks looked like they might regain all of that loss on Monday. However, shortly after lunch the bulls started to lose steam and then news broke about the FBI raiding Trump's lawyer's office. More nonsense and drama that has absolutely no material impact on the market for more than a day. A truly strong market would have ignored that headline and powered right into the close. A skittish one, like we have today, would have sold off right into the close.

As I wrote on the blog over the weekend, volatility remains elevated and that's not going to change anytime soon. Stocks are in somewhat of a tight trading range that could be breached on both sides before we see a sustainable move. It still SEEMS like we need another WOOSH or flush lower, but a close above 24,700 will cause me to rethink that.

Tuesday should be an interesting day. If this is the week the bears are going to make a push, they shouldn't let the bulls do much on Tuesday. If it's not their time, we should see more of the same.

Don't forget to check our blog for more info [www.InvestForTomorrowBlog.com](http://www.InvestForTomorrowBlog.com)

Posts are typically made three times per week and you can sign up here to be notified by email when a new one is up. <http://www.investfortomorrow.com/BlogAlerts.asp>

### Important Disclosure Information

Heritage Capital LLC ("Heritage") composite performance results represent time-weighted actual performance results for continuously managed Heritage accounts, which individual accounts Heritage believes to be representative of its investment management process (i.e. mutual funds and exchange traded funds) for each specific strategy during the corresponding time period. The composite performance results reflect the reinvestment of dividends and other account earnings, and are net of applicable account transaction and custodial charges, and the separate fees assessed directly by each unaffiliated mutual fund and exchange traded fund holding that comprised each account, and the maximum investment advisory fee that the accounts would have incurred (by applying the Heritage's current investment advisory fee of 2.00% as set forth in its current written disclosure statement) during the corresponding time periods.

Please Note: Past performance may not be indicative of future results. Therefore, no current or prospective client should assume that future performance will be profitable, equal the performance results reflected, or equal any corresponding historical benchmark index. The historical index performance results for all historical benchmark indices do not reflect the deduction of transaction and custodial charges, or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing indicated historical performance results. The historical performance results for all indices are provided exclusively for comparison purposes only, so as to provide general comparative information to assist an individual client or prospective client in determining whether the performance of a Heritage program meets, or continues to meet, his/her investment objective(s). A corresponding description of each index is available from Heritage upon request. It should not be assumed that Heritage account holdings will correspond directly to any such comparative benchmark index. The Heritage performance results do not reflect the impact of taxes.

For reasons including variances in the investment management fee incurred, market fluctuation, the date on which a client engaged Heritage's investment management services, and any account contributions or withdrawals, the performance of a specific Heritage client's account may have varied substantially from the indicated portfolio performance results.

In the event that there has been a change in a client's investment objectives or financial situation, he/she/it is encouraged to advise Heritage immediately. Different types of investments and/or investment strategies involve varying levels of risk, and there can be no assurance that any specific investment or investment strategy (including the investments purchased and/or investment strategies devised or undertaken by Heritage) will be profitable.

Information pertaining to Heritage's advisory operations, services, and fees is set forth in Heritage's current disclosure statement, a copy of which is available from Heritage upon request. Performance results have been compiled solely by Heritage, are unaudited, and have not been independently verified. Heritage maintains all information supporting the performance results in accordance with regulatory requirements.
